PERCENTAGE OF WORK COMPLETED

**TASK 1: MATERIALS FABRICATION**

No work was done on Task 1.

STATEMENT "A" per Wally Smith  
ONR/Code 1131  
TELECON 3/21/90

VG

**TASK 2: MEASUREMENT AND CHARACTERIZATION**

No work was done on Task 2.

**TASK 3: THEORY AND MODELING**

Task 3 was 5% completed.

**DESCRIPTION OF WORK COMPLETED UNDER TASK 3**

A literature search was performed to determine the state-of-the-art in modeling the electromagnetic wave reflection and transmission of periodic arrays of metallic and resistive patches in multilayer structures. The list of references is attached. A preferred computational method was selected<sup>1</sup> that could be implemented within the resource constraints of this contract. Satisfactory implementation of the algorithm was not completed before the work was stopped. (KR) (—)
